8

YEARS RUNNING

The meeting point for everyone building with real-time voice, video & open media.

9–11 June 2026 · Düsseldorf

2026 is the year.

Voice AI has crossed from research project to production reality. Every VoIP platform is integrating LLMs. Every carrier is asking what comes next. The developers making those calls - literally - will be in one room in Düsseldorf this June.

Be part of that conversation.

What is CommCon?

CommCon is the conference for people actually building real-time voice, video and open media systems. Not a vendor expo. Not a keynote-and-booth show. A single-track, community-run technical conference where every seat is the front row - and the hallway conversations are half the reason people come back.

All killer, no filler.

Every talk is chosen for technical depth. No sponsored content, no panel shows, no sales pitches dressed up as sessions.

Everyone on one level.

Speakers, sponsors and attendees mix freely for the entire event. No VIP areas. No green rooms. No separation.

Community first, always.

Running since 2018. UK, US, now continental Europe. The community follows CommCon because it delivers - every single time.

SOCIAL MEDIA FOLLOWERS

LinkedIn · X · Instagram · Mastodon · Bluesky

Talks go live on YouTube immediately after each session - and keep getting watched for months.

Your logo. Every. Single. View.

Who comes to CommCon?

Our audience are the engineers, architects and founders building real-time voice, video and media delivery into products. Telephony, streaming, broadcast, AI - if it moves media in real time, CommCon is where the people building it come together.

WHO'S IN THE ROOM

- Voice AI engineers & pipeline architects
- VoIP, SIP & telephony developers
- WebRTC & real-time media engineers
- Open source project maintainers
- CTOs, founders & technical leads
- Streaming & broadcast technologists

WHY VOICE AI COMPANIES BELONG HERE

The developers integrating Deepgram, ElevenLabs, OpenAI's Realtime API, Cartesia and others into production telephony pipelines - they're here.

This isn't a general AI audience. These are the people writing the code that connects your API to real calls, real carriers, real users. CommCon 2026 is where that community gathers.

Be there.

It's the best-of-the-best of the RTC industry.

All the CTOs and influential senior engineers gathered in one place, with a great balance of presentations and actual tech; a proper grassroots vibe. And yes, we've even got leads as a result of sponsoring.

Steve Loynes

Head of Marketing · Element · Platinum Sponsor

> *"CommCon is great for us because Dan takes care of all the admin and live support, leaving us free to concentrate on the content. It's immaculately well-organised."*
>
> **James Body, CEO · Telet Research · Platinum Sponsor**

Who has spoken at CommCon?

Eight years of talks from the people actually building the industry - not just writing about it.

Google	Meta / Facebook	Jitsi	Slack	Cloudflare
Pion	FreeSWITCH	Kamailio	OpenSIPS	Asterisk
Jambonz	Element	Daily.co	Dolby	Agora
Voneto	Teluu	Telet Research	Software Mansion	SipFront

Why sponsor CommCon?

01
The right room
Engineers, CTOs and founders building real-time media - not a general tech audience, not a trade show. The exact people making purchasing and build decisions.

02
No booth-standing required
Sponsors mingle as equals for three full days. Genuine relationship-building, not a stand you're stuck behind.

03
4K YouTube reach
Every talk is recorded and published immediately. Your logo on screen, reaching thousands of views that accumulate long after the event.

04
First continental European edition
CommCon heads to continental Europe in 2026, co-hosted with Sipgate in Düsseldorf. Reach the European VoIP and voice AI market in force.

05
8-year track record
Immaculately organised. Excellent speaker quality. High sponsor satisfaction. The community trusts CommCon - and trusts the companies that back it.

06
The AI inflection point
Voice AI is moving from experiment to production. The developers making it happen are coming to CommCon. Be the company they associate with that moment.
